To Whom It May Concern:

It is with great pleasure that I am writing this letter of recommendation for Cliff Ketteborough. He is an excellent teacher and tutor that show great content knowledge of not only math, but any subject that is presented to him. He is the type of teacher that many would strive to be, always teaching students from scratch, and never under the assumption that they have some prior knowledge of the content. He teaches in a way that ensures the students understand the material and content from ground zero.

In the two years that I have known Cliff, both as a colleague and as a supervisor, I have seen him grow with passion in the field of education. He is always working to better himself in all subjects. If there is a subject he may not fully understand, he will go out and learn more about that subject so that he does understand it. Cliff is the individual that fully believes that life is always about learning more and better oneself.
